## **Software notice**

The PowerBlow by Kiiroo is to be used with the authorized FeelConnect app and VideoWatcher app only.

Downloading any third-party applications to control or interact with the Keon that are not mentioned above is done entirely at your own risk.

In the event that a third-party application is downloaded, and it damages either the device software or hardware or leads to personal injury, neither Kiiroo, FeelRobotics nor any of their partners will be held liable.

## **Hardware notice**

The PowerBlow by Kiiroo was designed to be used with original Feel Stokers only. The usage of any third-party hardware product in combination with the PowerBlow violates the terms of usage and warranty, and Kiiroo will not be liable for any damage sustained.

## **National deviation 7.12.Z1**

This appliance contains batteries that are non-replaceable.

For a part of class III construction supplied from a detachable power supply unit, the instructions state that the appliance is only to be used with the unit provided.

The appliance is not to be used by persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge unless they have been given supervision or instruction.

FeelRobotics and Kiiroo are constantly working to ensure their hardware and software are as secure as possible.

We recommend updating your app and device every time there is an update. Keeping your device and app versions up-to-date ensures you have the newest features and guarantees your safety.

## **Logo usage**

Apple and the Apple logo are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc., registered in the U.S. and other countries.

Google Play and the Google Play logo are trade marks of Google Inc.

The Bluetooth® word mark and logos are registered trademarks owned by the Bluetooth SIG, Inc. and any use of such marks by Kiiroo is under license.

Other trademarks and trade names are those of their respective owners.

## SET UP YOUR DEVICE

### Set up your device

Using the USB C cable provided, charge your device until the LED lights on the top LED ring turn to solid green; about 1.5 hours.

*\*We recommend charging the device fully prior to the first use. The charging port can be found on the PowerBlow (see picture).*

### While your device is charging

Scan the QR code on the insert found in the box, or go to [www.kiiroo.com](https://www.kiiroo.com) to create your user account. <https://www.kiiroo.com/my-account/>

Once you have created an account, please go to: <https://www.kiiroo.com/pages/register-your-device> to register your device and activate your one (1) year warranty.

Download the FeelConnect App so you are ready to pair your PowerBlow with your mobile phone once it is charged.

### Charging port

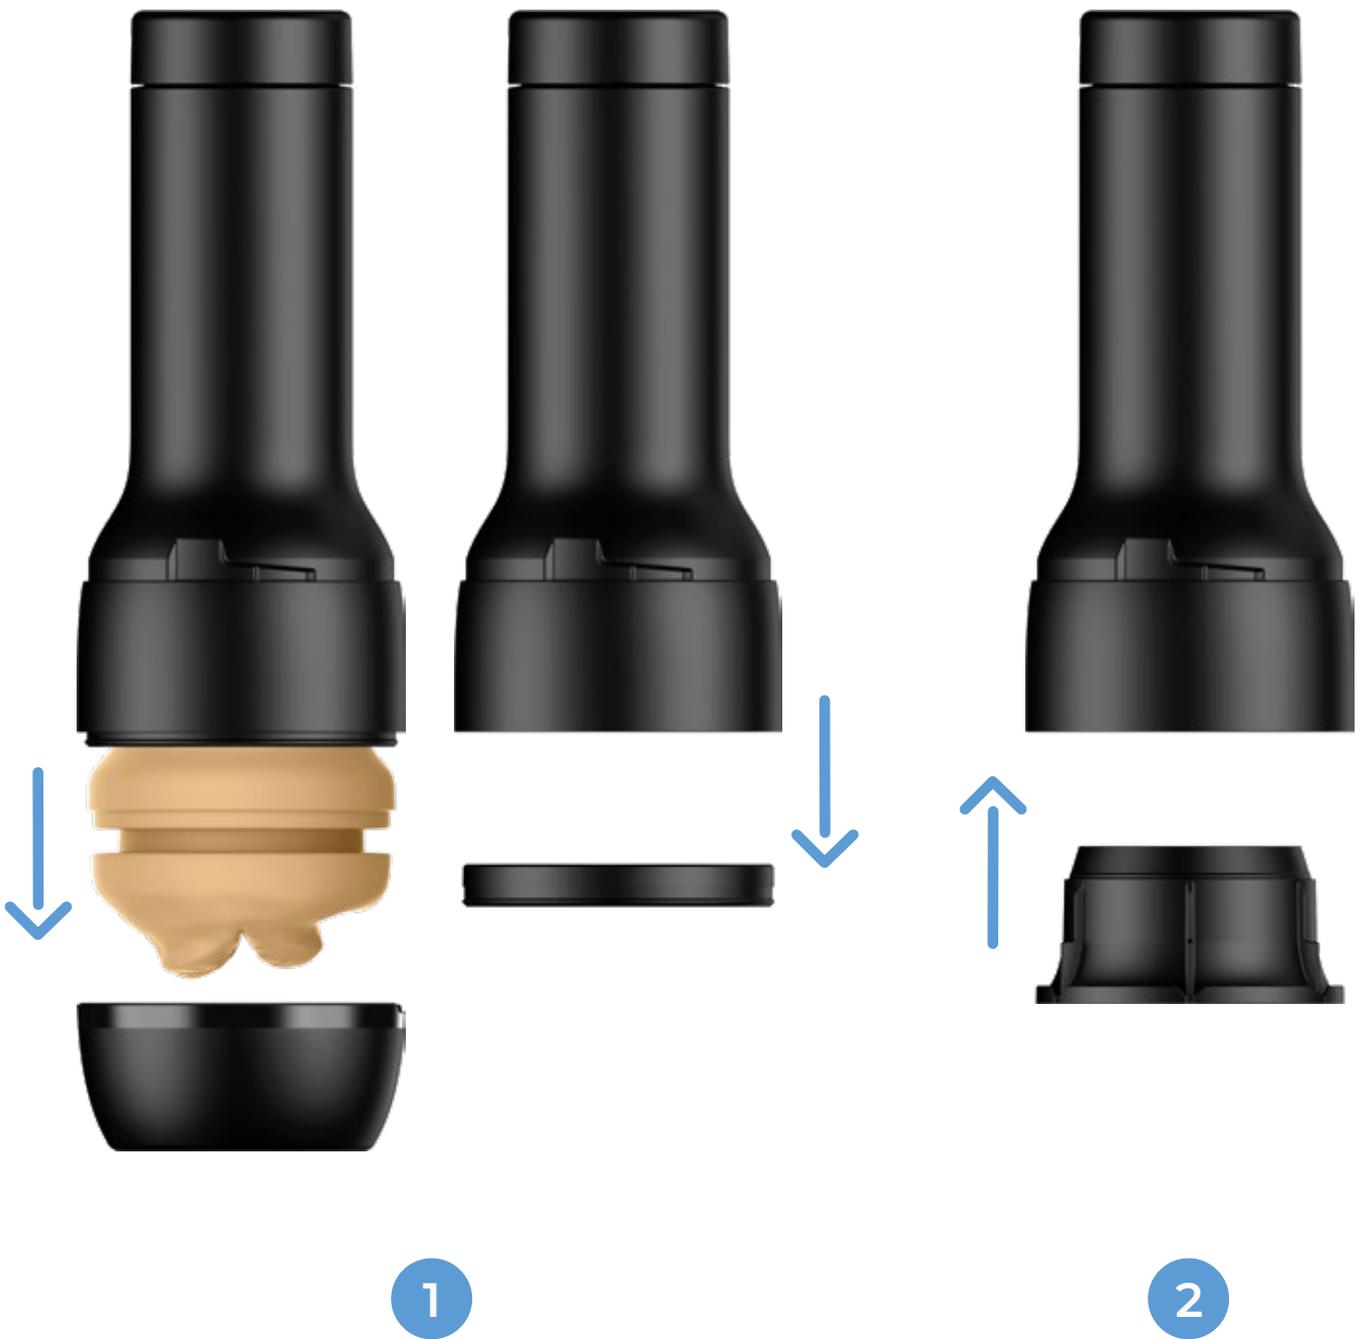

## USING YOUR DEVICE

### Connect the Feel Stroker to PowerBlow.

1. Remove the lid and take the sleeve and inner ring out of the Feel Stroker case.
2. Insert the cup into the stroker and clip it in place.

# POWER BLOW

## USING YOUR DEVICE

3. Slide the inner ring and sleeve back into the stroker case and clip it in place. Unscrew the cap on the base of the Feel Stroker.
4. Put the rubber gasket onto the stroker, then screw the PowerBlow on top of the Feel Stroker.
5. Add water-based lube into the stroker and enjoy!

*\*The PowerBlow by Kiiroo was designed to be used with Feel Strokers. The usage of any third-party hardware product in combination with the PowerBlow by Kiiroo violates the terms of usage and warranty, and Kiiroo will not be held liable for any damage sustained.*

# POWER BLOW

## USING YOUR DEVICE

### Quick start

To turn on PowerBlow, press and hold the **Power/Mode button** on top (approximately 4 seconds) until the device turns on.

When the device is turned on, PowerBlow is automatically in **Interactive/Bluetooth Mode** (Go to page 13).

 **Power/Mode**

Press and hold the Power/Mode button for 1 sec. to reach **Manual Mode** (Go to page 14). Press and hold the same button for 1 sec. to reach **Automatic Mode**.

To pause the device, press the Power/Mode button once.

# POWER BLOW

## USING YOUR DEVICE

To turn off PowerBlow, press and hold the **Power/Mode button** (approximately 4 seconds) until the device turns off.

The flashing blue light indicates your device is in **Interactive Mode** and searching to connect to the FeelConnect app via Bluetooth.

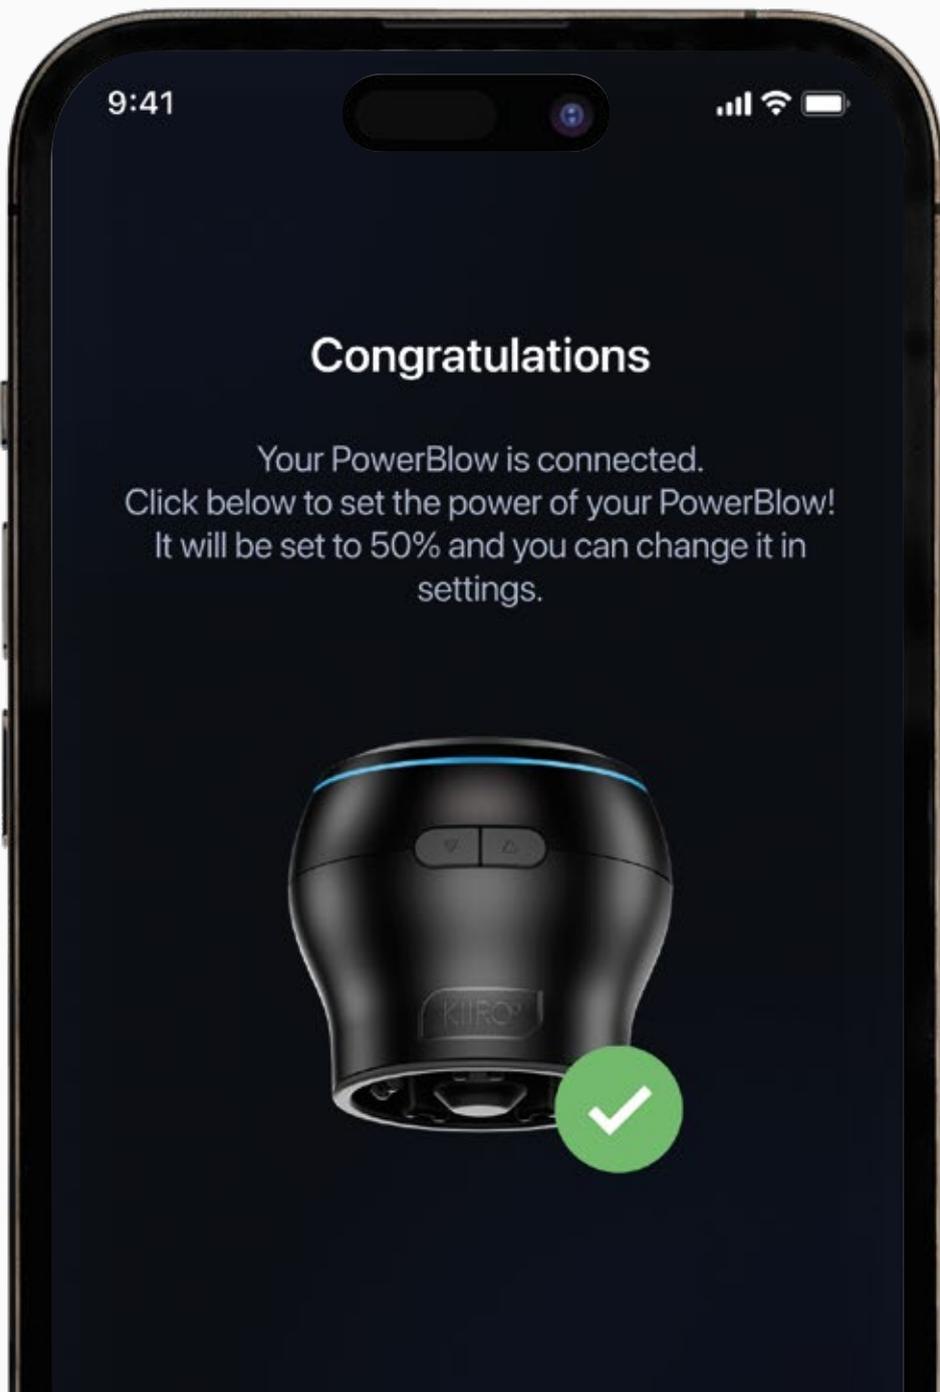

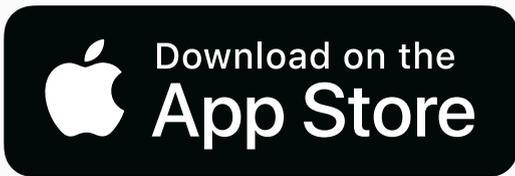

# POWER BLOW

## FEELCONNECT APP & SERVICES

Please download the FeelConnect app and follow the instructions in the app to pair your PowerBlow to the app.

**Please note: PowerBlow is compatible with FeelConnect**

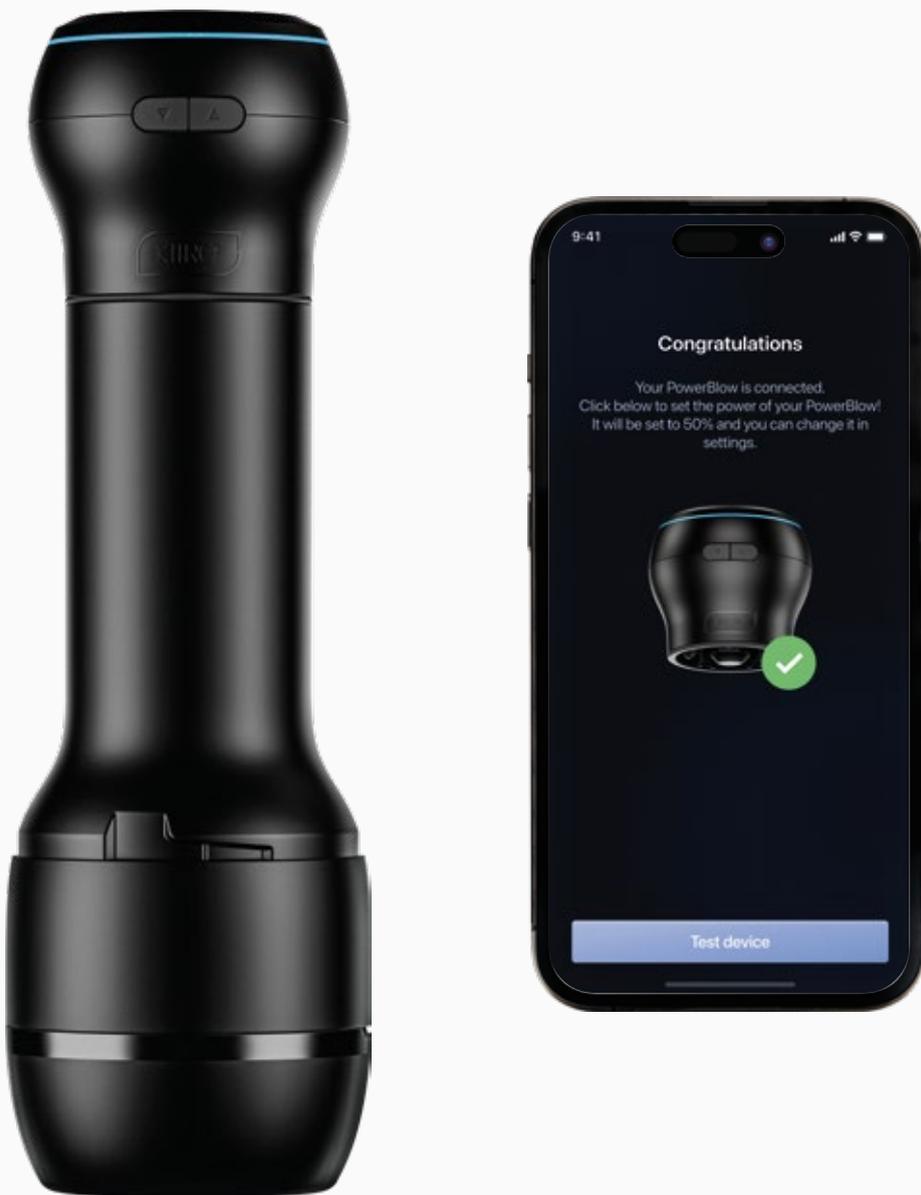

## FEELCONNECT APP & SERVICES

### Feel your partner

When paired online, the complementary devices give you the touch and intimacy you crave, from anywhere in the world.

**Please note: The PowerBlow is only able to be controlled by partner devices using the FeelConnect app. To control partner devices use the Touch Control function in the FeelConnect app.**

## FEELCONNECT APP & SERVICES

### Pairing with Keon

For users who already own Keon, you can now pair your Keon with PowerBlow via the FeelConnect app to enhance your experience and enjoy the best possible sensations.

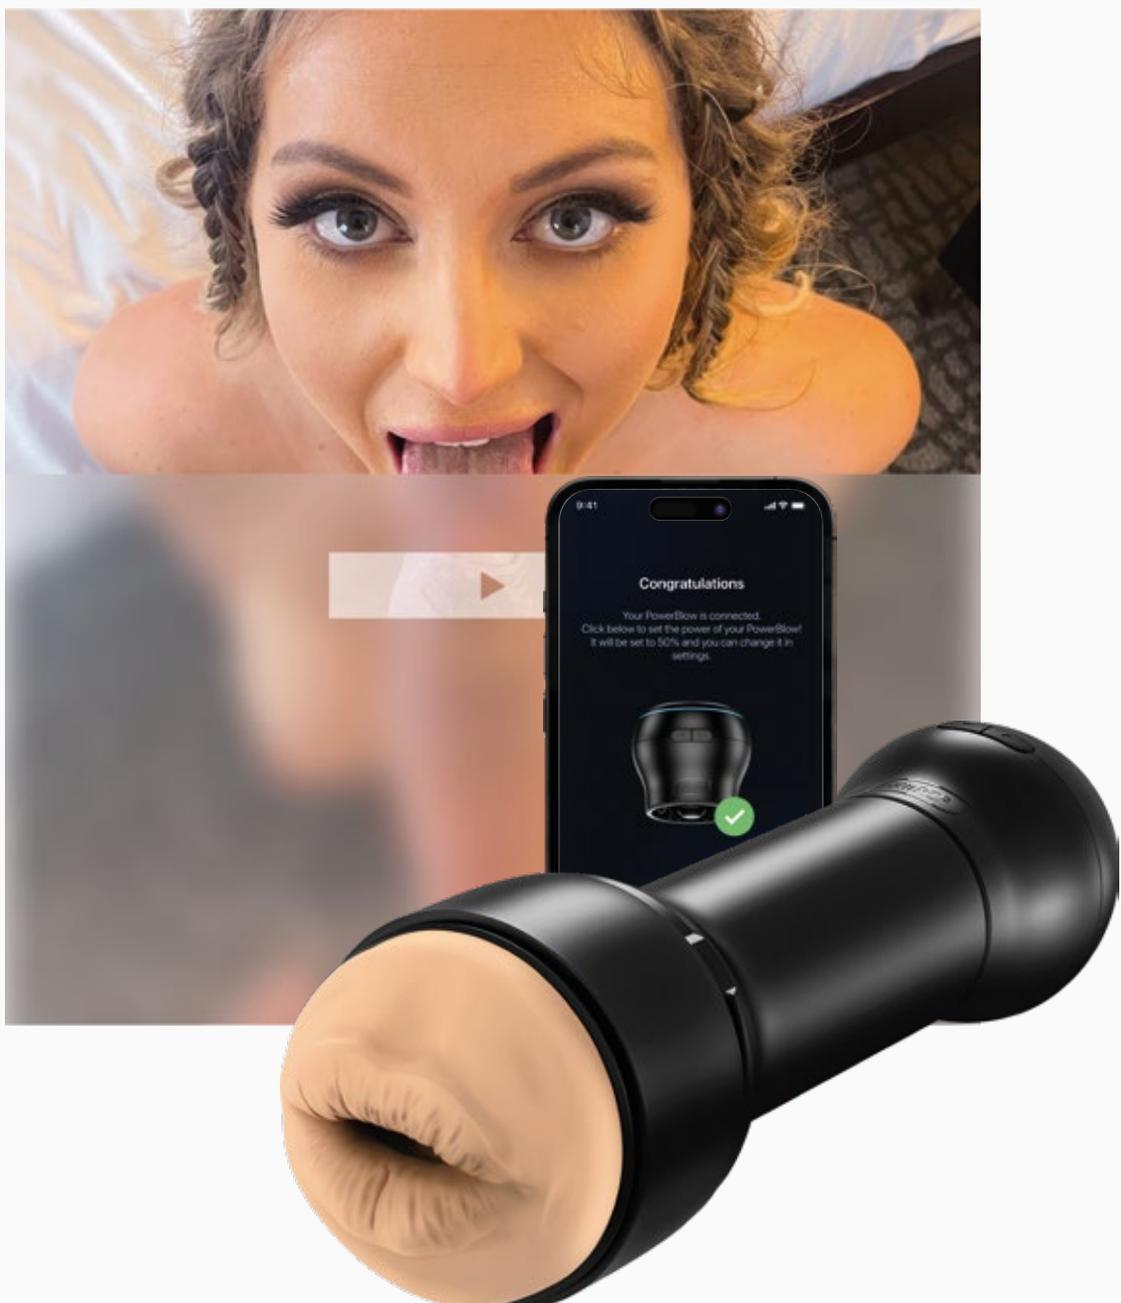

## FEELCONNECT APP & SERVICES

### Feel videos

Our exclusively encoded 2D and VR porn videos let you feel what you see on screen making you feel like you are really there. Encoded interactive content can be found on a number of premium adult sites for a monthly fee. Go to <https://www.connect2feel.com/deals> to find the best deals for encoded interactive videos and VR.

\*These paid premium adult sites work with the FeelConnect app.

CONNECT WITH FEELME AI

## Connect to adult content using FeelMe AI

FeelMe AI is the world's first platform that uses AI to make adult content on the internet interact with your Kiiroo device in real-time.

FeelMe AI auto-subtitles adult content in real-time and works with almost all premium, freemium and webcam sites!

**\*PowerBlow's compatibility with FeelMe AI is coming soon.**

Visit [FeelMe.com](https://FeelMe.com) on your Google Chrome Browser to start your free trial and find out more about the subscription package that suits your needs.

**Available on desktop and mobile.**

# POWER BLOW

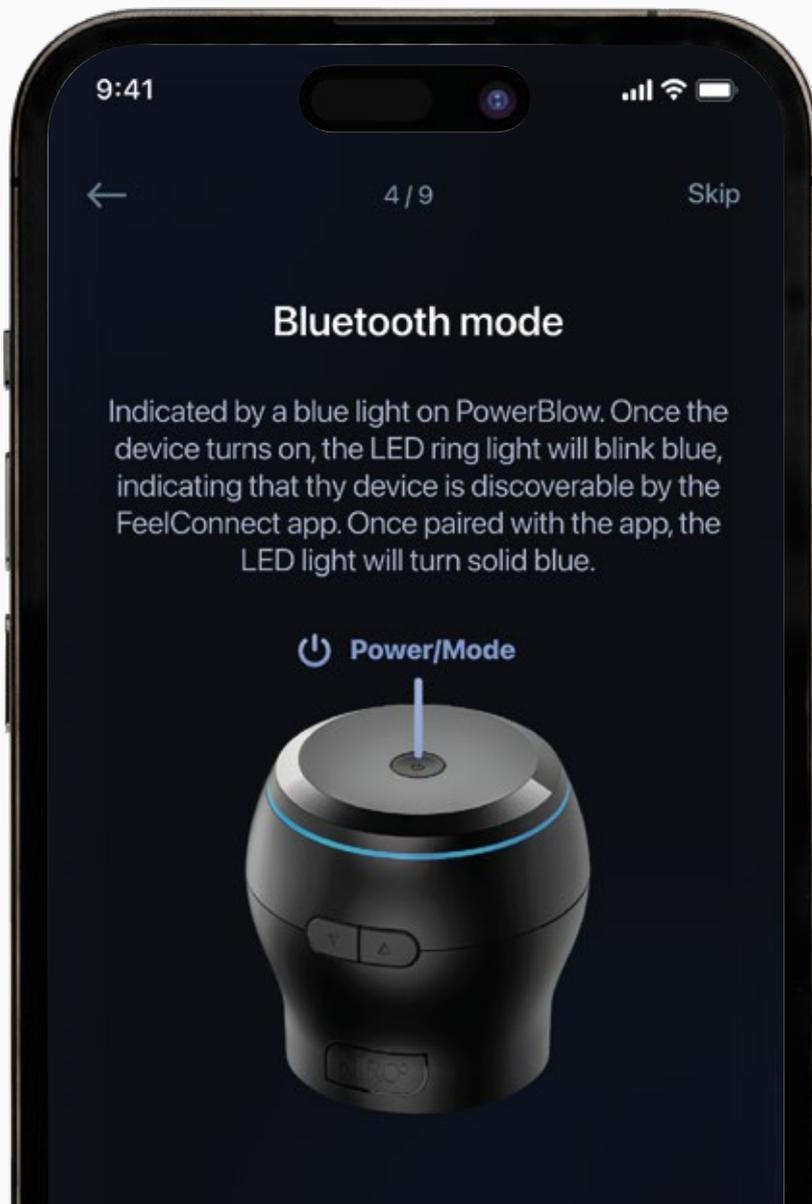

## MODES

### **Bluetooth Mode - indicated by a blue light on PowerBlow.**

Once the device turns on, the LED ring light will blink blue, indicating that the device is discoverable by the FeelConnect app. Once paired with the app, the LED light will turn solid blue.

Follow the onboarding instructions in the FeelConnect app to set up your preferred settings.

You will be able to enjoy interactive content, connect to your partner and even control your PowerBlow manually using the app.

# POWER BLOW MODES

## Manual Mode - indicated by a white light

Press the Power/Mode button for 1 sec. until the LED lights go white.

Press and hold the **Arrow up button** to create suction. The longer the button is pressed, the stronger the vacuum created by PowerBlow. The device will retain the vacuum even after the button is released.

Press the **Arrow down button** once to release air and stop the vacuum effect. Repeat the process as desired.

*\*Do not connect Keon by Kiiroo and PowerBlow together in manual mode. For optimal use of both devices together, download the FeelConnect app to pair Keon and PowerBlow and allow Keon to control PowerBlow.*

# POWER BLOW

## MODES

### **Automatic Mode - indicated by a pink light**

Press and hold the Power/Mode button for 1 sec. again to enter Automatic Mode. This mode has 1 automatic pattern that repeats itself in a constant loop.

By pressing ▼ and ▲ buttons, the intensity of the vacuum suction will increase or decrease.

*\*For safety reasons, the PowerBlow's intensity is set to 50%. To modify the device's intensity features, download and connect to the FeelConnect app. Please note: every user's optimal intensity differs depending on the diameter of their erect penis.*

### **Pause Mode - indicated by a blinking purple light**

To Pause suction, press the Power/Mode button once. Press the button again to resume operation.

⏻ Power/Mode

## CHARGING AND LED INDICATOR

Insert the USB C cable into your PowerBlow's charging port. The charging port is located at the back side of your PowerBlow. Insert the other end into a USB port. This can be in a computer or wall adapter.

***\*Please note, wall adapter is NOT included in the box.***

We recommend using a wall adapter as using a computer will exceed the 1.5 hour charging time.

The LED ring on PowerBlow indicates the battery level and charging progress.

-  When the battery level is critically low, the LED indicator will blink red quickly.
-  When the LED indicator flashes red, the battery is 10% charged.
-  When the battery is 30% charged, the LED indicator will blink in orange.
-  When the battery is 50% charged, the LED indicator will blink in light orange.
-  When the battery is 70% charged, the LED indicator will blink in yellow.
-  When the battery is 90% charged, the LED indicator will blink in light green.
-  The LED light will turn solid green when your PowerBlow is fully charged. Please disconnect the charger before use.

# POWER BLOW HANDLING

## Use

Please ensure lube is only used on your stroker and not the PowerBlow itself.

## Do not use

Silicone lubricant, massage oils or hand creams in your stroker as it will deteriorate the skin-like sleeve material.

## Cleaning the Feel Stroker

Always clean your sleeve thoroughly after each use.

1. Remove the Feel Stroker from the PowerBlow.
2. Remove the sleeve from the outer casing of the Feel Stroker.
3. Rinse the sleeve with warm water and Kiiroo pure™ intimate toy cleaner or a specialized toy cleaner and allow it to air dry.
4. Rinse the outer casing or wipe down with antibacterial wipes.
5. Dry completely before placing the sleeve back in the casing.
6. After your sleeve has air dried, use the FeelNew Renewing Powder over your sleeve so that it remains smooth and soft.

## Cleaning PowerBlow

PowerBlow is not waterproof. Please use a moist or damp cloth after each use.

## DISCLAIMER & WARNINGS

- Do not use the PowerBlow if there are exposed electronic elements.
- Do not use the PowerBlow if you are in a shower, bath-tub, swimming pool, sauna, steam room etc.
- ***\*The PowerBlow is NOT waterproof.***
- Do not use the PowerBlow if it is excessively hot to touch.
- Do not use the PowerBlow or Feel Stroker on inflamed or irritated areas.
- Avoid leaving your PowerBlow in direct sunlight and never expose it to extreme heat.
- Never use cleansers containing alcohol, petrol or acetone.
- Do not use heating appliances to dry the sleeve or device.
- Avoid using harsh soaps as they can damage the sleeve material.
- Always store the device out of reach of children.

## Warnings

We, as Kiiroo make no medical claims with our devices.

This device is not to be used by or on minors (anyone under 18), or anyone who is unable or unwilling to express consent. This device is not intended for persons with reduced physical, sensory or mental capabilities, or a lack of experience and knowledge, unless they have supervision or instruction concerning use of the device by a person responsible for their safety.

Kiiroo will not be held responsible for any undesirable results of misuse.

# POWER BLOW

## DISPOSAL SPECIFICATION

While the PowerBlow is made from eco-friendly materials, you should not dispose of the PowerBlow in your waste bin.

Like any other electronic device with a rechargeable battery, there are disposal regulations.

These regulations vary by local municipality, city and by country. Be aware of how electronics are disposed of where you live.

Kiiroo suggests you ask your local council center.

Also, consider that in your locality, PowerBlow may be considered bio-waste because of its intimate nature.

# POWER BLOW

## FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:  
Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

(Example - use only shielded interface cables when connecting to a computer or peripheral devices).

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

## FCC STATEMENT

The equipment is used in portable condition.

“The antenna(s) used for this transmitter must not be collocated or operating in conjunction with any other antenna or transmitter”.

This device complies with Part 15 of the FCC Rules.

The operation is subject to the following two conditions: This device may not cause harmful interference, and this device must accept any interference received, including interference that may cause undesired operation.

# POWER BLOW

## SED STATEMENT

This device complies with Industry Canada license exempt RSS standard(s).

Operation is subject to the following two conditions : this device may not cause interference and this device must accept any interference, including interference that may cause undesired operation of the device.

This device complies with IC RSS 102 RF exposure requirements for portable use configuration.

The device must not be colocated or operating in conjunction with any other antenna or transmitter.

This device complies with Industry Canada's RSS for licence-exempt radio devices.

Operations are permitted under two conditions: the device must not cause interference and the user of the device must accept any radio interference, even if the interference is likely to impair its operation.

This device complies with IC's RFIC 102 exposure requirements, for portable use configuration.

The device must not be co-located or operate in conjunction with another antenna or transmitter.
